Website

PROFILE

I am a statistician and public health researcher at icddr,b, where I work as a Monitoring & Evaluation Officer. My work spans research design, protocol development, field implementation and the statistical analysis of large health datasets. My research focuses on non-communicable diseases (hypertension, diabetes and pediatric NCDs), environmental health and WASH in coastal Bangladesh, and child nutrition. I have more than six years of experience in R, STATA, SPSS and Python, including regression, mixed models, structural equation modelling, survival analysis, geospatial analysis and machine learning.

RESEARCH INTERESTS

Non-communicable diseases · Environmental health & WASH · Child nutrition · Health systems & M&E · Biostatistics & data science

EXPERIENCE

Monitoring & Evaluation Officer — icddr,b — Oct 2024 – Present

- Draft research protocols for IRB review; contribute to grant writing and concept notes.
- Design mixed-methods baseline and endline surveys; epidemiological and health-systems gap analyses.
- Develop M&E frameworks, theories of change and real-time monitoring dashboards in R.
- District-level project representative coordinating with local health authorities, NGOs and partners.

Senior Research Assistant — icddr,b — Feb 2024 – Oct 2024

- Designed and implemented mixed-methods surveys; managed field operations and data collection.
- Analysed health datasets in R, STATA and SPSS; built Power BI and R Shiny dashboards.

Research Assistant — icddr,b — Aug 2023 – Feb 2024

- Led the COBRA Urban Digitization Study; supported the WHO SEARO hypertension and diabetes study.
- Analysed cohort and case-control data; trained field teams; scoping review for the Pediatric NCD study.

Research Intern (Statistician) — NCD Unit, Nutrition Research Division, icddr,b — Mar 2023 – Jul 2023

- Statistical analysis of COBRA-BPS data; data cleaning and quality checks.
- Contributed to epidemiology and health data science books in R (The Global Health Network Asia).

Data Analyst — Cognitive Solution Bangladesh Sep 2021 – Feb 2023

- Infection, vaccine and surveillance research; RCT, cluster RCT and non-inferiority designs.
- Supervised the data management team; GIS (QGIS/ArcMap), text mining and dashboards.

Junior Data Analyst — Cognitive Solution Bangladesh Feb 2020 – Sep 2021

- Analysed hospital, field survey and DSS data; statistical modelling in STATA, R and Python.

EDUCATION

MS in Statistics 2021

Mawlana Bhashani Science and Technology University · CGPA 3.93 / 4.00

BSc (Hons) in Statistics 2019

Mawlana Bhashani Science and Technology University · CGPA 3.72 / 4.00

RESEARCH PROJECTS

Drinking-water salinity & household health survey 2024 – present

icddr,b

NCDs & environmental risk among older people 2024 – present

icddr,b

COBRA-BPS: Control of Blood Pressure and Risk Attenuation 2023

icddr,b — Bangladesh, Pakistan & Sri Lanka

COBRA Urban Digitization Study 2023 – 2024

NCD Unit, icddr,b

Hypertension & diabetes identification (WHO SEARO) 2023 – 2024

icddr,b — Matlab

Pediatric NCD study & scoping review 2023 – 2024

icddr,b

MS thesis: stunting & machine learning 2021

Mawlana Bhashani Science and Technology University

BSc project: rural–urban fertility 2019

Mawlana Bhashani Science and Technology University

SKILLS

Statistical software: R, R Markdown, R Shiny, Python, STATA, SPSS, SAS

Visualisation & GIS: Power BI, Tableau, Flexdashboard, QGIS, ArcMap

Methods: Regression, Mixed models, SEM, Survival analysis, Machine learning, Text mining, Trend tests

Study designs: RCT, Cluster RCT, Cohort, Case-control, Cross-sectional, Mixed methods

TRAINING & TEACHING

- Instructor, R Programming for Data Analysis and Research — Data Skewed Consultancy
- R Programmer (professional course) — Cognitive Solution Bangladesh
- Ethics in Research — Initiative for Non-communicable Diseases, icddr,b (2023)
- Qualitative Research — NCD, Nutrition Research Division, icddr,b (2023)
- Developing an analytical plan: the gateway to writing a manuscript — icddr,b (2023)
- The Global Health Network Asia: leadership in health research and data science — icddr,b (2023)
